For a team building event during the day create a custom event where guests get to experience a Cayman style cattle drive - with a more local type of "livestock" then just plain ol' cows! From a day activity, this event can end in the theme setting described above.

Cayman Snow- A Twist on Fire and Ice

This one is a true show stopper with 8 foot fiery cauldrons and red glow columns in half the space and blue satin overlays with individual ice sculpture centerpieces, ice martini luges for the other. This takes the theme of Old Havana nights and lights up the tropical skies with a different twist.

Thru rustic gates complete with donkey carts and colorful florals, guests will be transported to Cuba but there is a different glow to the evening. Neon lighted tabletops, Lycra cocktail tables in bright yellows, hot pinks and reds abound as well as tropical florals that have small lights tucked into each bloom for a truly electric look. Stretched hammocks, a lighted dance floor and custom neon lighted Mojito Bar set complete this theme suite and make for a great night of dancing in the streets of Cuba under electric stars.

A carnival market can be set up as well to showcase cigar rolling experts, straw hat making and other fun interactive entertainment.

Overhead carnival lighting will be strung and great touches such as lighted signage and custom donkey carts with beverages can be added.

For this theme, we also offer a version of Old Cayman Nights with similar look but a more native Caymanian style and entertainment options. So guests can either experience the sultry nights of Cuba or the hospitality and charm of Old Cayman.
